

ABZ-02

全自动包装机

Full Automatic Packing Machine

技术参数

电源:380V/50Hz,功率0.75KW。
包装速度:450-500件/小时
封口方式:热封(180-210°C)/自粘可选。
整机尺寸:1585×951×2530mm;重量约400kg。

技术参数

Power Supply: 380V/50Hz, Power: 0.75kW
Packaging Speed: (450–500 pieces per hour)
Sealing Method: Heat sealing (180–210°C) / self-adhesive optional
Overall Dimensions: 1585×951×2530mm; Weight: approx. 400kg

ABZ-02

设备概述

1.用途与功能

专用于T恤、衬衫、卫衣、外套、裤子、家纺等纺织品自动套袋、折叠、封口、裁切、喷码，适配衣架吊挂或叠衣上料；自动识别衣长、智能裁膜、热封/自粘封口，全程自动化。

2.适配范围

☑ 适用：薄-中厚成衣、针织/梭织、带/不带衣架、23-42cm宽PE/OPP自粘袋/热缩膜。

☒ 不适用：真丝/雪纺、超软易变形。带过多硬质配饰、厚羽绒/棉服。

3.核心配置

控制：PLC+触摸屏，伺服运膜、光电测长、智能控温、自动纠偏。

机架：304不锈钢+碳钢喷塑，接触面料部位光滑防勾丝。

气路：0.6-0.8Mpa洁净压缩空气，耗气量约500L/min。

Equipment Overview

1.Purpose & Functions

Specially designed for T-shirts, shirts, hoodies, jackets, trousers, home textiles and other textiles. It realizes automatic bagging, folding, sealing, cutting and coding. Compatible with hanger feeding or stacked garment feeding. It supports automatic garment length recognition, intelligent film cutting, heat sealing / self-adhesive sealing with full automatic operation.

2.Application Scope

☑ Suitable: thin to medium-thick garments, knitted & woven fabrics, with/without hangers; PE/OPP self-adhesive bags and heat shrinkable film (width: 23-42 cm).

☒ Not suitable: silk, chiffon, ultra-soft & easily deformed fabrics, garments with excessive hard accessories, heavy down and cotton padded clothes.

3.Core Configuration

Control system: PLC + touch screen, servo film feeding, photoelectric length detection, intelligent temperature control and automatic deviation correction.

Frame: 304 stainless steel + carbon steel spray coating; fabric contact parts are smooth to prevent snagging.

Pneumatic system: clean compressed air 0.6-0.8Mpa, air consumption approx. 500L/min.
